

STELLENBOSCH MODEL AIRCRAFT ACADEMY

ABBREVIATED RULES AND REGULATIONS

This abbreviated set of Rules and Regulations must be adhered to by every RC Pilot who uses this facility.

A comprehensive set of Rules and Regulations are available at request and www.smaa.co.za -- A "I did not know" response will not be accepted.

RCASA: Only Pilots with a valid RCASA Membership are allowed to fly at this facility.

OPERATING TIMES: between 08:00 and sundown every day (**NO** flying before 08:00)

PROFICIENCY: To fly on your own, a RCASA Solo proficiency is required. You are however allowed to fly under the supervision of a Pilot with an Advanced Pilot or better RCASA proficiency rating

LANDING FEES: A landing fee receipt – use the SnapScan QR Code at the bottom of this notice. RCASA Membership or SMAA year permit must be produced on request

FLYING CIRCUIT: As soon as two planes are in the air, only circuit flying is allowed. The prevailing wind will determine the direction of the circuit and the runway to use. Circuit changing allowed after Safety Officer and all Pilots agree thereto.

NO FLY ZONES:

- Absolutely **NO** flying over any buildings and/or dwellings
- Within 10 meters from the furthest side of the runway in use except on take offs and landings
- Behind or directly above yourself
- Beyond the boundaries of the farm or out of sight of any Pilot

Failure to adhere to the no flying zones will result in an immediate grounding

NOISE POLLUTION LIMITS: A noise emitting limit of 90dB (A) over a hard surface at a distance of 7 meters at full throttle must not be exceeded. Planes that exceed this limit according to a SMAA official, will be grounded for the day.

COURTESY:

- Make sure your peg is on the frequency board before switching on your TX
- Pilots using 2.4 GHz are requested to use the Frequency Board as well
- Do not start a plane with tail pointing to the pit area, fellow Pilots, shades and/or spectators
- Adhere to calls from other Pilots using the facility
- Glider Tug/launching lines must not be left on the runways
- Do not consume alcohol before and during flying (Please Support Restaurants on the farm after flying.
 - Do not hug a frequency other than 2.4Mhz for longer than 20 minute at a time
